

Feature Wishlist & Strategic Concept

Notes: Youth Evidence-to-Policy Digital Portfolio

Project Title: Youth Evidence-to-Policy Digital Portfolio

Client / Initiative: Centre for the Study of Adolescence (CSA Kenya) • INSPIRE-Kenya Youth Evidence to Policy Lab

Lead Developer: Osagiede Ryan Eromosele

Primary Stakeholders: Rukia Nzibo (Review & Handover), Sandra Washika, Bilateral Donors (USAID, UNFPA, Gates Foundation), County Health Directorates

Purpose: Technical catalog of creative ideas, UX patterns, and strategic concepts for the showcase interface.

1. Demographic & Sub-National Footprint Intelligence

With all 12 ages and 5 operational counties verified, the platform presents concrete demographic evidence:

A. Age Distribution & Youth Representation

- **Cohort Age Range:** 21 to 33 years old.
- **Average Age:** 25.7 years.
- **Young Youth Density (Ages 21–26): 75% (9 out of 12 champions):**
 - Ngai Mugambi (21), Nicole Abekah (23), Irene Alma (23), Stanley Hayo (24), Hagee Branham (24), Carolyn Njeri (24), Alvin Evelia (24), Okoth Zaccheus (25), Otieno Danmark (26).
- **Senior Youth & Technical Leads (Ages 28–33): 25% (3 out of 12 champions):**
 - Tonny Elvis (28), Ashley Kazungu (28), Lavender Judy (33).
- **Donor Presentation Hook:** *"Authentic youth leadership backed by multidisciplinary technical rigor: 75% of champions are under 26, bridging frontline adolescent lived experience with legal, spatial GIS, and health economics expertise."*

B. Interactive Kenya Map Mechanics

- **County-Level Hotspot Pins:**
 - Animated pulsing rings over the 5 operational counties: **Nairobi (6), Kisumu (2), Homa Bay (2), Siaya (1), and Kilifi (1).**
 - Clicking a county pin smoothly filters the directory below or highlights that county's cluster.

- **Regional Grouping / Corridors:**
 - **Lake Victoria Basin Cluster:** Siaya, Kisumu, Homa Bay (grouping champions working on high-burden adolescent health, GIS, and community scorecards).
 - **Capital & National Policy Hub:** Nairobi (legal drafting, diplomacy, communications, media, health promotion).
 - **Coastal Marine & Climate Corridor:** Kilifi (environmental science, climate justice, and health).
- **Contextual County Tooltips:**
 - Hovering over a county displays quick regional context:
 - E.g., "Siaya County — Stanley Hayo Yongo (24) • Focus: AYSRHR Technical Working Group & Community Scorecards"
 - E.g., "Kilifi County — Ashleya Kazungu (28) • Focus: Climate Resilience & Youth Civic Engagement"

2. Champion Profile & Storytelling Formats

Moving beyond static Word biographies means giving each champion an identity that showcases agency and professional competence.

A. Card & Directory Layout

- **Visual Grid View:** Cards with age badge, county pill, skills, and summary snippets.
- **Executive Table View:** High-density, sortable table (Name | Age | County | Academic Background | Key Tools | Affiliation) preferred by data-driven grant officers.
- **The "Lived Experience to Policy Impact" Tagline:**
 - A bold, 1-sentence quote or impact hook at the top of each profile:
 - Irene Alma (23): "Bridging silence with action: certified sign language advocacy for deaf youth and GBV prevention."
 - Nicole Abekah (23): "Turning spatial coordinates into youth health policy through GIS mapping."
 - Hagee Branham (24): "Translating diplomatic drafting into grassroots age-of-consent legal reform."
- **Competency & Tool Badges (Skill Matrix):**
 - Rather than generic adjectives, highlight concrete tools:
 - GIS & Spatial Analysis (QGIS/ArcGIS)
 - Kenyan Sign Language (KSL)
 - Human Subject Protection
 - mHealth & Health Comms
 - Community Scorecards
 - Diplomatic Drafting & Policy Briefs

3. Visual Identity & Brand Alignment (CSA Kenya Official Aesthetic)

Based on an audit of CSA Kenya's official web portal (csakenya.org):

- **Color Palette Hierarchy:**
 - **Navy Deep Blue (#002B49):** Primary brand anchor, symbolizing CSA's 35+ years of research and institutional authority.
 - **Cyan / Sky Blue (#0090D0):** Action color used for call-to-actions, active filter states, and youth vitality.
 - **Warm Ochre / Gold Accent (#E5A823):** Highlight color used for stat counters, featured champion badges, and key policy wins.
 - **Clean Crisp Slate (#F8FAFC & #FFFFFF):** High-readability card backgrounds ensuring maximum legibility.
- **Typography:**
 - Clean modern sans-serif (Plus Jakarta Sans or Inter) paired with structured display weights for headings.
- **Accessibility by Design (A11y):**
 - Direct alignment with Irene Alma's focus on disability and deaf inclusion: full keyboard navigation (Tab / Escape), high-contrast text ratios exceeding WCAG AA standards, and screen-reader accessible tags.

4. Donor & Grantmaker Engagement Features ("Why Fund This Lab?")

Donors do not fund static lists of names; they fund **capacity, evidence, and scalability**:

A. The "Funder / Partner Matchmaker" Filter

- A 2-step dynamic query: *"I am looking for youth evidence in..."*
 - Step 1: Select Topic (e.g., *Disability Inclusion, Climate & Health, Legal Reform*)
 - Step 2: Select County (e.g., *Kisumu, Nairobi, Any*)
 - Result: Instantly highlights the exact champion(s) equipped to lead that technical sprint.

B. "Commission an Evidence Sprint" Call-to-Action

- A lightweight button on every profile: **"Engage for Policy Working Group"** or **"Request Brief"**.
- Opens a pre-filled contact drawer directing inquiries to CSA's lab focal points (Rukia/Sandra), allowing donors to commission:
 - Sub-national policy scorecards
 - County youth technical working group representation
 - Rapid grassroots surveys and GIS mapping

C. One-Click "Dossier Export" (Print / PDF Mode)

- A cleanly styled @media print stylesheet that allows Rukia or partners to click **"Download Cohort Summary (PDF)"** and immediately generate a professional, branded briefing

document ready for board meetings or donor pitches.

5. Phased Rollout Strategy for Friday's Demo

When presenting to Rukia, this represents a clear 3-stage product vision:

[Phase 1: Working Prototype (By Friday)]

↳ 12 Interactive Cards (with confirmed ages & counties) + 5-County Kenya Map + Search + Pillar Filters + Detail Modals

[Phase 2: Asset Enrichment (Next Week with Sandra)]

↳ Official Headshots uploaded + Direct Video/Audio Elevator Pitches

[Phase 3: Public & Donor Launch]

↳ PDF One-Pager Export + Live Evidence Brief Downloads + Partner Inquiry Pipeline
